

INTRODUCTION

General Welding & Fab., Inc. welders have completed extensive school training to obtain various certifications. Our goal is to be the **#1 qualified welding house** in Western New York.

Together with Quality Inspection Services we are holding classes continually and are enclosing a current list of our **Certifications for your reference.**

A CWI (Certified Welding Instructor) is on premises to certify your next job, should it require additional needs.

We employ 50+ people in our 2 Plants and **run three shifts** (Monday through Friday) in Plant 1.

If you have further needs or questions, please contact one of are representatives.

CERTIFICATIONS:
